EXPERIENCE

Tech OctaNet Services Pvt Ltd

Feb. 2024 – Mar. 2024

Web Developer

Delhi, India

- * I gained hands-on experience in web development and learned about the latest web technologies and frameworks.
- * I worked on two real-life projects, which helped me understand the development process.
- * For my first task, I developed a responsive Landing Page using HTML, CSS, and JavaScript.
- * Overall, my internship experience helped me develop my skills and provided me with a strong foundation for a career in web development

PROJECTS

E-Commerce | *Bootstrap, React*

- * E-commerce website built using Bootstrap and React.
- * Includes product catalogue, shopping cart, and checkout process.
- * Demonstrates proficiency in web development technologies and complex web application development.

Food Delivery Website | *Tailwind, React*

- * Created a user-friendly interface that allows users to browse food items, add them to their cart, and checkout easily.
- * Provided clear instructions and feedback to the user during the test.
- * The website should allow users to customize their orders, such as specifying dietary restrictions or adding special instructions for the restaurant.

MemePage WebApp | *Tailwind, React*

- * Implement a system to alternate **turns between two players** (X and 0) .
- * Compare the user's choice with the computer's choice to determine the winner.
- * Include a **reset button** to start a new game.

Joke Extension | *HTML, CSS, JavaScript*

- * The extension should be able to generate jokes based on user input or randomly.
- * The UI should be visually appealing and easy to use for a positive user experience.
- * The extension should be designed to work well on all screen sizes, including desktops, laptops, tablets, and mobile devices.
